JÜRGEN PULS: THE MAN AND HIS MISSION

All outstanding products find their origin in the mission and the person behind them.

The man behind V.A.P.: **Jürgen Puls**

As pool supervisor, managing director and counsel for public pools and swimming instructor, he has been devoting his entire professional life to combat drowning.

Careful analysis of required provisions and research of eligible technology led to the invention of V.A.P., the ultimate device to cover the entire sequence from getting into water to detection of danger, saving by buoyancy and showcasing the scene of drowning to enable rescue.

PULSIVISION HOLDS PATENTS IN MAJOR MARKETS

Patents cover two-third of world population.

- USA
- Brazil
- China
- Australia
- Japan
- EU (F, I, D, CH)
- Turkey

PULSIVISION V.A.P.

AFTER YEARS OF R&D: PULSIVISION IS READY TO ENTER PRODUCTION SOON

Next Steps

To reach this **next level** we are looking for **strategic investors** who want to be part of this huge business opportunity that will **save thousands of lives per year** and are comitted to support PULSIVISION with sufficient funding, management know-how and international expertise. Jürgen will continue as driving force behind R&D.

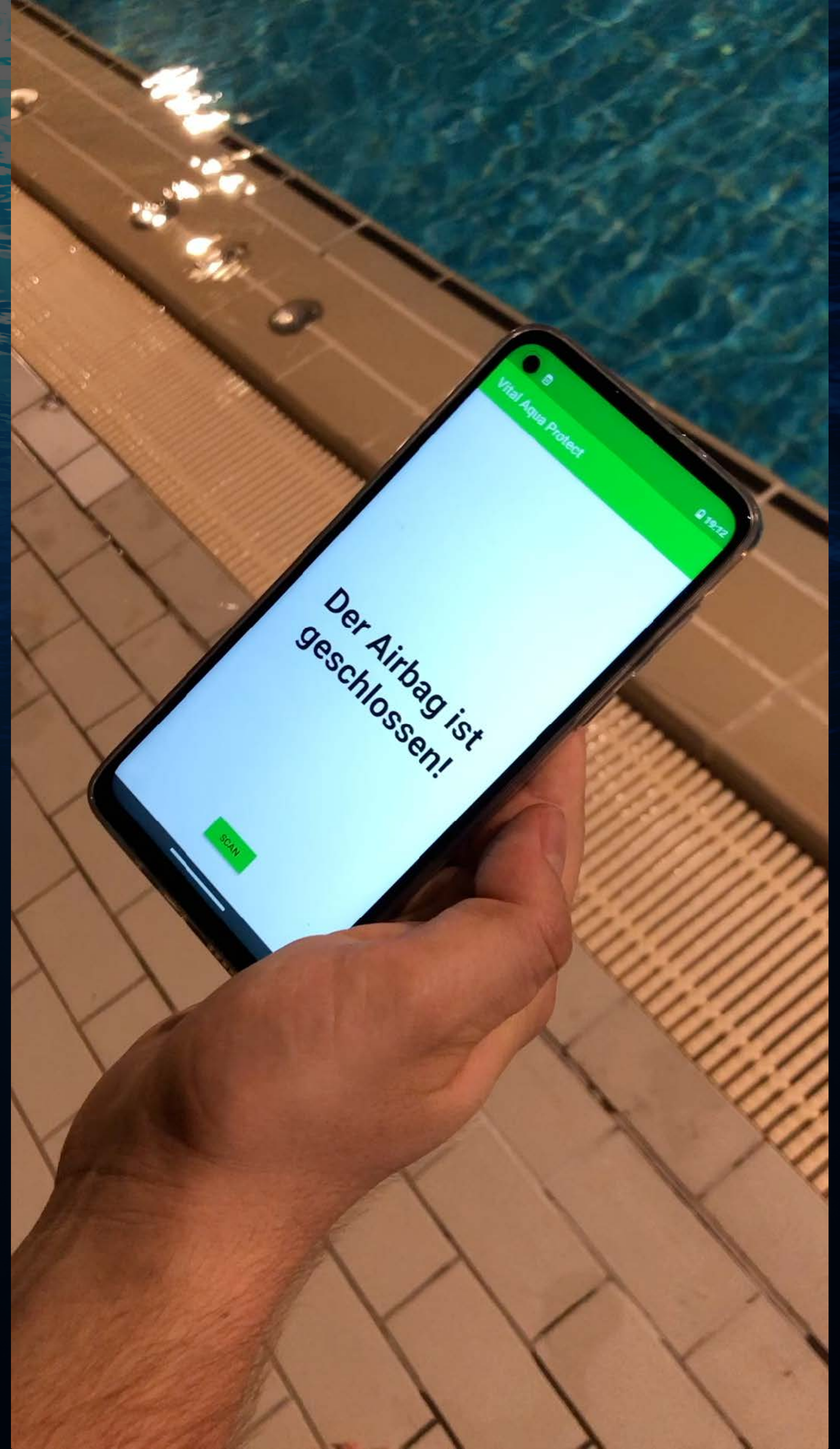

Our roadmap to success:

PULSIVISION V.A.P.

TOGETHER WE CAN MAKE IT WORK AND SAVE THOUSANDS OF LIVES.
